

Florida Department of Environmental Protection

New Directions for Stormwater BMPs

December 7, 2016

Tom Frick, Director

Division of Environmental Assessment & Restoration

New Water Law

- As provided in s. 403.067, the department, in consultation with the district and affected parties, shall develop nonagricultural nonpoint source interim measures, best management practices,...

Questions

- What nonagricultural land uses or activities are currently not covered by a regulatory program?
- What land uses should the BMPs be applied?
- What should be included in the rule?
- What are methods for implementation assurance?
