## FSA WINTER CONFERENCE

---

### DECEMBER 1-4, 2020

## Florida Stormwater Association 2020 Winter Conference

### *A Message from our President...*

Thank you for joining us for the 2020 Winter Conference! We are excited to be your “one-stop-shop” for the latest information on surface water policy and best practices in stormwater management. The Conference Committee has worked hard to create an outstanding program of workshops with many opportunities for you to learn and network with your peers.

Here are a couple of details to help you make the most of your time with us...

- **Agenda** – The Agenda is available at <https://www.florida-stormwater.org/2020winteragenda>.
- **Live Conference** – Access the live conference at <https://www.florida-stormwater.org/fsalive>. From the live conference page, you can select the sessions that are of interest to you.
- **Chat** – During the live conference we encourage you to talk with your peers through the Chat feature on the Zoom toolbar. Share your comments and thoughts about the presentations and be sure to select “All Attendees and Panelists” before sharing to ensure that everyone can see your comments.
- **Q&A** – Submit questions for presenters to answer live through the Q&A feature on the Zoom toolbar. Questions are encouraged and are a great opportunity to interact with presenters and further your education.
- **Continuing Education and Evaluations** – You will receive an email at the conclusion of each day for which you are registered for the conference. The email will include a link to an online Continuing Education and Evaluation Form. For details, visit the CE section in this notebook.
- **Sponsors** – FSA would like to thank all of the Winter Conference Sponsors! We encourage you to contact these sponsors to thank them for their support of FSA. To view sponsor messages visit <https://www.florida-stormwater.org/dec20-sponsor-exhibitor-info>
- **Conference Materials** – You can access conference materials including presentations, the conference notebook, sponsor messages and more on the presentations webpage at <https://www.florida-stormwater.org/winterpres20>.
- **Watch on Demand** – We understand that you may not be able to join us for the full conference. We’ve pre-recorded all of the educational sessions so that you can watch on demand at a time and place that works best for you. Registrants will have access to all content for a full year!

I would like to take this opportunity to thank our Conference speakers, sponsors, and the Conference Committee members. Their assistance and support make this event possible. We hope you enjoy your time with us!

If you have any questions don’t hesitate to contact our staff. We hope you enjoy the Conference!

Kelli Hammer Levy, MS, MPA, CPM, ENV SP

### CONTINUING EDUCATION INFORMATION

#### Professional Engineers

Florida Professional Engineers attending this conference will be eligible for Professional Development Hours on an hour-per-hour basis. Professional Engineers and Certified Floodplain Managers must submit paperwork each day including their license number to receive credits. (FSA Provider #03854 – Area of Practice).

#### All Other Professions

FSA is happy to provide you with a Certificate of Attendance for attending our conference. A Certificate of Attendance will be sent to all attendees that complete a Continuing Education and Evaluation Form(s).

---

#### Instructions:

You will receive an email at the conclusion of each day for which you are registered to participate in the conference. The email will include a link to an online Continuing Education and Evaluation Form. **You must fill out a form for each day that you are requesting continuing education.** We will only be able to accept forms during the conference; forms cannot be submitted after the conference.

After the conference, FSA will email you a Certificate of Attendance showing the total number of continuing education hours you received. You can use that certificate as proof of attendance.

***Don't miss out on continuing education!  
Be sure to...***

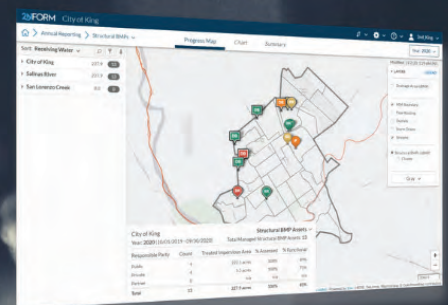

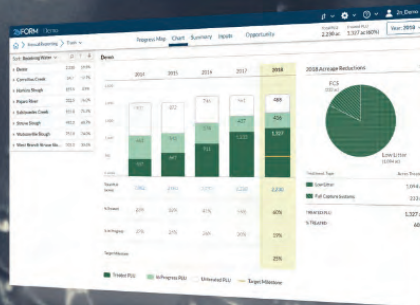

If you have questions contact FSA at [info@florida-stormwater.org](mailto:info@florida-stormwater.org) or 888-221-3124.

# 2NDNATURE

2NDNATURE is an enterprise cloud stormwater management platform that's purpose-built for municipal stormwater managers, incorporating a comprehensive suite of applications for managing stormwater assets, benchmarking stormwater program effectiveness, streamlining regulatory MS4 compliance and planning healthier cities.

**Bolsters Stormwater Management and Compliance:** Integrated with Esri ArcGIS, 2NDNATURE's peer-reviewed science and program management methodology strengthens day-to-day management of stormwater assets and benchmarking progress against BMPs – all recognized by regulators as best practices for achieving MS4 compliance.

**Saves Time and Money:** 2NDNATURE reduces the time, cost and complexity of managing stormwater assets, program work flows and MS4 compliance reporting.

**Builds Healthy and Sustainable Cities:** By eliminating inefficient compliance reporting and optimizing stormwater management, municipalities can focus their efforts on achieving long-term sustainability objectives.

## Catch Basin

CleanWay Catch Basin Filtration Inserts are storm drain filters that are highly effective at removing contaminants from storm water runoff.

## Curb Inlet

CleanWay Curb Inlet filters remove debris and pollutants from storm water runoff to keep drainage waterways clear and prevent environmental contamination.

## Downspout Filter

Is your rooftop runoff a concern for the pollutant load it carries? CleanWay Downspout Filtration systems help you comply with water quality regulations that mandate removal of pollutants and heavy metals from rooftop runoff.

## Metalzorb

CleanWay's MetalZorb is a high capacity sponge filtration medium that effectively reduces, removes and recovers dissolved heavy metals. This includes lead, mercury, zinc and gold, found in storm water and industrial process water discharge.

# Collective

## WATER RESOURCES

*Collective Water Resources believes in adaptive, comprehensive approaches – including the fusion of ideas from diverse backgrounds to identify and implement water resources solutions.*

*Our four guiding principles include:*

Having a balanced, quality life is paramount. Aim for passion each day.

Being good to others is key. Create an atmosphere that you and your colleagues enjoy.

We are all in this together – environmental stewardship is essential, and this is one of the primary challenges of our time.

Both the big picture and details are important – water resources is our focus and we are proud to be a firm that values both the large and small details.
